Summary

Professional Software Engineer specializing in Information Systems with 3+ years of experience. Adept in all stages of the development cycle for dynamic front-end web applications with a back-end structure. Possesses a clear knowledge of Computer Science principles such as software engineering, object-oriented programming, and data structures. Reliable as both a communicative team member and an independent developer within the Agile software development life cycle.

Education

University of California, Irvine Irvine, CA	December 2016
<i>Bachelor of Science in Computer Science</i>	GPA 3.12
Specialization in Information Systems	

Orange Coast College Costa Mesa, CA	December 2014
<i>Associates of Arts</i>	GPA 3.66

Experience

OC Web Kings Newport Beach, CA	August 2015 - Present
<i>Web / Mobile App Developer</i>	

- Maintained 10+ web projects by developing them from the ground up both front-end and back-end, improving upon existing web applications, and troubleshooting software with technical issues
- Cooperated with designers to materialize lo- and hi-fidelity design mockups and wireframes that lay out user interface and encompass UX, ensuring pixel by pixel implementation for projects
- Created dynamic API calls that retrieve multiple data objects in JSON in an app for aircraft pilots, establishing real-time communication between client and server on fetching database information
- Overhauled a company's website's architecture, design, and UX to a style that modernizes its representation and resonates with users, and optimized its SEO to raise its page ranking to the first or second page on search engines
- Built an estimator tool and dynamic bar graph that calculates sales revenue based on number of insurance policies sold per year, providing insurance brokers an instrument to project their goal of the annual salary to earn

Technical Skills

Languages: C, C++, Java, Python, SQL, HTML/CSS, LESS/Sass, JavaScript, jQuery, PHP, Liquid

Tools: Microsoft Visual Studio, IDLE, jGRASP, Notepad++, Laravel, PHP Storm, MySQL, Microsoft SQL Server, WordPress, Shopify, Git, WAMP

Operating Systems: Windows

Activities

Video Game Development Club (VGDC) Irvine, CA	October 2014 - June 2016
--	---------------------------------

- Participated in meetings, discussions, workshops, and game jams related to game development
- Explored opportunities to learn about and get involved in the gaming industry as well as other technical industries
